MEGAdrive & store

Functional and large-capacity trolleys for all situations

Former serial products of BLANCO Professional

EN

An unbeatable team
MEGAprogress, MEGAdrive, PROassist, MEGAstore, CLEANassist

MED-Systeme provides system solutions for medical functional areas in clinics and hospitals, as well as outpatient departments and medical practices.

MEGAprogress is full of rich features. Perfectly-fitted furnishings are planned for every imaginable functional area, for example sterilisation areas. Instrument and implant storage cabinets, endoscope and catheter storage cabinets – MEGAprogress provides a solution to all technical requirements in hospitals and medical practices.

The “little brother” MEGAdrive is the mobile addition to the MEGAprogress cabinet range. Everything that needs to be brought to patients quickly can be loaded into, hung onto or clicked into it.

Our mobile functional furniture PROassist provides safety and high quality in every respect. The range contains a wealth of clever, mobile assistants for all the functional areas of a clinic. There is a focus on flexibility and hygiene in all of the products, whether they are furniture, seating or equipment. All of the furniture is made of stainless steel and thus corrosion- resistant, resistant to disinfectants, hygienic and easy to care for.

The MEGAstore offers ample space for an entire day’s worth of consumables. Individually usable modules can be used to store everything needed in the day-today running of a clinic. Dust-tight and clean behind space-saving roller shutters or individually opening hinged doors. Stylish and modern in shape and colour, smart in its versatility as a valuable assistant

Our sterile supply and disposal components have proven themselves in countless central sterilization departments.
With our expanded CLEANassist product line, we are presenting an integrated system solution that implements innovative ideas in order to optimally organize the sterile supply and disposal cycle.
As a system supplier in the medical technology field, we offer not only comprehensive product know-how but also competence in the organisation of logistical processes in the hospital.
We respond individually to your needs to create a suitable solution for any requirements.
Our systems are designed to be modular and flexible. They can be easily customised and supplemented. Everything from a single source.

MED-Systeme - Your medical technology system supplier.

MEGAdrive & store

Mobile assistants for clinics, medical practices and outpatient departments.

Here comes an assistant you can depend on: MEGAdrive functional trolleys quickly arrive where they are needed, can be used for a broad range of applications and nothing can put them off-track.

With its pleasant appearance, MEGAdrive gains the trust of patients. With its professional equipment, it also eases your work every day – for emergencies and operations, during exams and anaesthetising, when bandaging or applying plaster casts.

MEGAdrive doesn't just offer you a rugged shell, but also plenty of ergonomically sound details – ranging from soft closing drawers which are as quiet as a whisper to uniquely-shaped push handles.
The long service life of the trolleys is guaranteed by their high-quality finish "German technology" and specially selected durable materials.

MEGAdrive.
Welcome to the team.

The MEGAstore complements the fleet of medical transport trolleys by MED-Systeme with a lot of extra volume. For a lot of extra material for long working days.

MEGAstore.
Loaded in the morning, no need to re-stock all day.

Accessories 29

MEGAstore - ITS ACE IS ITS SPACE 47

QUALITY IS UNMISTAKABLE

The MEGAdrive functional trolley helps make your daily work as easy and ergonomic as possible.

Practical | Wide selection of accessories which can be exchanged quickly.

Hygienic | Easy-to-clean materials and smooth, seamless surfaces.

Fast | With an average delivery time of 3 weeks, we can fulfil your requirements with above-average speed.

The trick with the “Click!”
For maximum flexibility with accessories

Minimum effort for maximum functionality: with the ingenious MED-click connector system, you can attach accessories quickly and exchange them easily.

Simply click in the necessary MED-click accessory at the desired position – and it’s done!

The complete range of MED-click accessories and the MED-click multi-functional wall can be found starting on page 31.

MED-click multi-functional wall
Expand your options

- Suitable for any MED-click accessores which you wish to attach above the worktop
- Especially practical for attaching syringe and needle dispensers
- Available with 1 or 2 rows of MED-click connectors

Ergonomics in top form
With its unique push handle

- Ergonomic design
- Effortless to push and thus easy on the back
- Made of stable, hygienic stainless steel (Material 1.4301 - AISI 304)
- MEGAdrive is also available without a push handle on request

Open for anything
Doors with a patented hinge

- Optimum loading and unloading due to extra-wide door opening angle of 220°
- The interior is already completely accessible when the door is opened 90°
- ISO modules and baskets can be slid in directly without bothersome-jamming
- Doors can be adjusted easily thanks to the patented hinge
- The reliable automatic closing function holds the door closed securely – absolutely hygienic without annoying magnets

Quiet, soft and safe
Drawers for convenient work

- Optimum opening with full extension for easy access to the contents of the drawers
- Secure closing to the last centimetre with soft-closing function as quiet as a whisper
- A special mechanism prevents the drawers from opening by themselves when the trolley is being moved
- Simple installation and removal of the drawers through slight raising or lowering, ideal for easy cleaning
- Veneered pull-out frames are available for holding ISO module baskets
- Practical drawer dividers can be found starting on page 44
- Particularly patient-friendly: the warming drawers to pre-warm infusions or linens (see page 43)

Moves easily and stands securely
With hygienic double smooth-rolling castors

- Best manoeuvrability due to four smooth-rolling castors
- Secure footing when working thanks to rugged brakes on two of the castors (with directional locking on request)
- Electrically conductive
- High-quality, abrasion-resistant, non-discolouring synthetic castors prevent your floor from being damaged
- Hygienic due to closed, smooth side surfaces
- **Castor diameter is 125 mm**
- **Protection for trolleys, walls, furniture**
- With extra-wide corner guards

The rugged corner guards on all four corners absorb impact and protect your furniture.

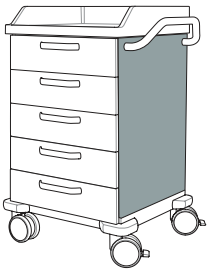

MATERIAL AND COLOURS

Explore your options

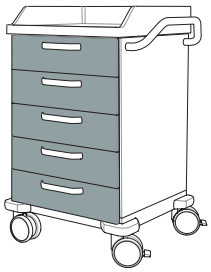

The stable work surface with railing
Hygienic, practical, excellent

- Deep-drawn, made of rugged ABS composite
- Particularly hygienic without joints and seams
- Resistant to UV
- Suitable for laser technology
- Alternatively also available made of stainless steel with or without synthetic railing (see page 39)

Double-walled body
Beautiful on the outside, rugged on the inside

- Stable, long-life all-metal construction in proven sandwich design for lower weight
- Noise-damping insulation
- Rugged, impact and scratch-proof
- Hygienic and easy-care
- Resistant to UV
- Resistant to commercially available disinfectants
- Made of powder-coated sheet steel in attractive “white aluminium” (RAL 9006) or brushed stainless steel

The rugged fronts
Variety for all situations

- Made of coloured powder-coated sheet steel (see overview on the right for colours)
- Manufactured in sandwich design for lower weight
- Work is easier thanks to rugged, ergonomic stainless steel handles with generous recessed grips.
- Hygienic: all doors and drawers have an all-round seal for protection against dust and dirt
- On request also available in brushed stainless steel

Stainless steel extreme
When the going gets tough

MEGAdrive functional trolleys are also available made completely out of stainless steel for particularly demanding use.

- Work surface, body and fronts made of high-quality brushed stainless steel (Material 1.4301 - AISI 304)
- Extremely rugged
- Resistant to water, water vapour and humidity
- Resistant to weak organic and inorganic acids

Making every day more colourful
Perfect in function, visually appealing

Classic “grey white” or would you prefer trendy “raspberry”? With MEGAdrive, you can choose the colour which suits you perfectly out of 26 standard and trendy colours.

Do you love the exceptional? We would be pleased to prepare an individual offer for you based on your colour wishes according to RAL, RAL Design, NCS or Pantone colour pattern charts.

- signal green RAL 6032
- mint turquoise RAL 6033
- creme white RAL 9001
- sulphur yellow RAL 1016
- zinc yellow RAL 1018
- azure blue RAL 5009
- strawberry red RAL 3018
- raspberry red RAL 3027
- blue lilac RAL 4005

Due to differences in print, colours of products may appear different to those shown in the catalogue.

BODY SIZES

DIN and ISO module trolleys

Your ideas take shape with MEGAdrive. You select the size, equipment and accessories exactly as you need them.

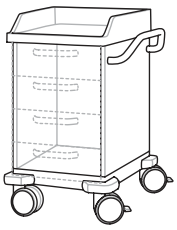

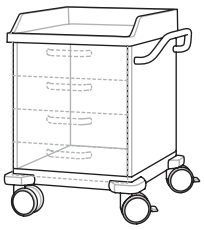

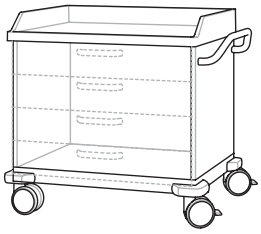

In three easy steps, you can assemble your MEGAdrive according to your wishes:

Step 1 | Do you need a DIN or an ISO module trolley? DIN trolleys are based on standardised DIN dimensions. ISO module trolleys have body dimensions specially adapted to the use of ISO modules.

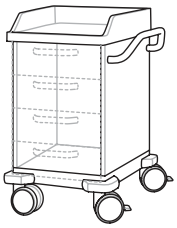

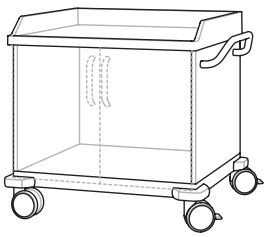

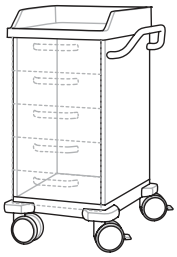

Step 2 | What working height do you require? How wide should your MEGAdrive trolley be? Select the suitable body according to your requirements from the standard sizes illustrated below.

Step3 | Then decide on a suitable front division with drawers, pull-outs, doors and compartments. All of the standard combinations available can be found grouped according to DIN / ISO module trolleys and working height on the following pages.

DIN trolleys

	MEGAdrive Mini		
			
Working height (body height)	**830 mm** (600 mm)		
Body width	450 mm	600 mm	900 mm
Body depth	530 mm	580 mm	580 mm

ISO module trolleys

	MEGAdrive Mini		MEGAdrive Mini
			
Working height (body height)	**830 mm** (600 mm)		**980 mm** (750 mm)
Body width	450 mm	900 mm	450 mm
Body depth	530 mm	680 mm	530 mm

580 mm	680 mm	580 mm	580 mm	580 mm	

Equipment variants

Entirely according to your wishes

For each of the 12 standard sizes, MEGAdrive offers you a selection of predefined equipment variants. In this way, approximately 60 basic models result, offering a well thought-out solution for any application.

With appropriate accessories, the MEGAdrive basic model can become exactly the functional trolley you desire
in no time at all.

Including special functions | We make it easy if you are looking for something unique – for example a preconfigured notebook trolley (ISO), gynaecological treatment trolley (DIN), emergency trolley (DIN), nappy changing trolley (DIN), plaster cast trolley (DIN) and roll-front trolley (ISO) can be found on page 13.

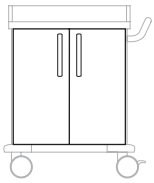

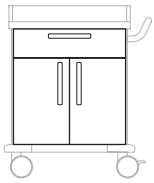

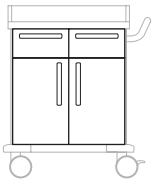

Special requests welcome | If you don't find a suitable solution within the standard range, we would be pleased to prepare a customised offer for you.

Configuration example 2

ISO module bandage and treatment trolleys

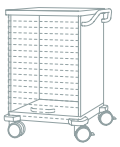

You can use all common ISO standard carrier walls, baskets and synthetic modules with the MEGAdrive ISO module trolleys.

With its patented door hinge with optimised opening, ISO module baskets can be easily inserted or removed – without bothersome jamming.

The ISO module baskets are simply laid in the fully-extendable drawer frames, quickly and securely.

+ The complete range of accessories can be found starting on page 29

Configuration example 4

Anaesthesia trolleys with warming drawer

With the integrated warming drawer, you can quickly access infusions prewarmed for the patient's comfort – without needing an additional unit or walking further.

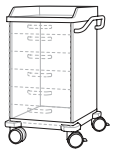

The controlled air circulation (convection) in the drawer ensures uniform warming of infusions, Ringer's solution or linens.

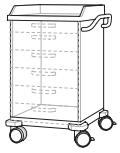

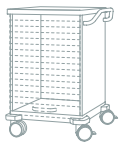

Simply switch it on – and it's done! The temperature fuse provides optimum protection against overheating. The current temperature in the interior is always easily legible thanks to the LED display.

If the drawer is opened, the convection heating switches off automatically to prevent uneven warming.

Anaesthesia trolleys with warming drawer (see overview on page 8)

Emergency trolleys

On the scene quickly: the emergency trolley from MEGAdrive offers you maximum functionality when every second counts. From an oxygen tank and reanimation board to a first aid kit and defibrillator, there is a safe place for all important utensils.

After it is loaded and checked by trained professionals, the trolley can be sealed – as a certain sign that the trolley is again completely ready for use.

Nappy changing trolleys

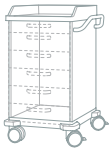

In the maternity ward, medical practices or clinics with rooming-in: the mobile MEGAdrive nappy changing trolley provides plenty of room for nappies, linens and an extra dose of tender loving care.

Sufficient storage space and the hygienically separated waste container ensure that everything goes smoothly when changing nappies and taking care of infants and toddlers.

From the wash basin, to the nappy changing pad, its accessories also leave nothing to be desired.

The trick with the “Click!”

CUSTOM COLOURS AVAILABLE

MEGAdrive with MED-click:
Minimum effort for maximum functionality.

The unique MED-click system allows for fast mounting or replacement of accessories. The accessories with mounting brackets are always in position and ready for use. MED-click provides the flexibility required in a modern and challenging medical environment.

There are 10 MED-click slots on the left side wall of the standard MEGAdrive trolley.

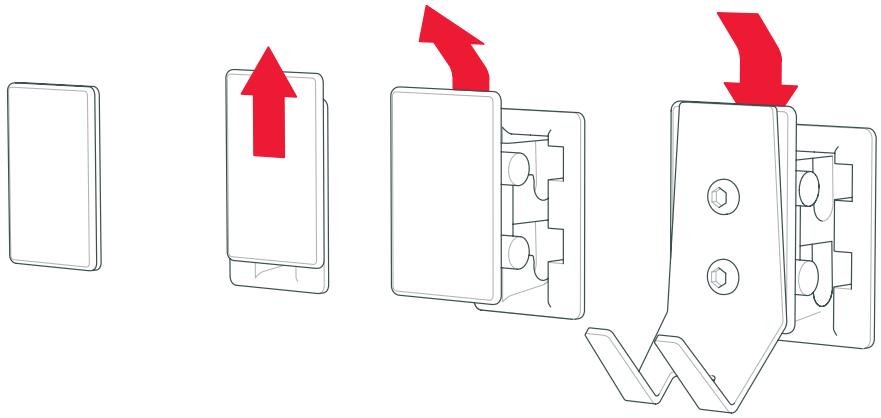

And now, additional possibilities are available to you with the optional multi-functional wall with one or two MED-click rows.

The multi-functional wall is perfect for everything that you would like to have accessible above the work surface.

For body widths of 600 mm / 660 mm, 5 slots per row are available, and there are 8 slots per row for a body width of 900 mm.

If a slot is not needed, it can be hygienically sealed with the corresponding cover clip.

Special accessories for the railing and sensible extras such as central locking, examination lights or suitable DIN and ISO modules round out the well thought-out range of accessories.

The MED-click system is comprised of two components: One part is integrated in the side wall or multi-functional wall, and the other part is fastened directly to the accessory.

Simply remove the MED-click cover, stick in the accessory – and you're done!

	Model description	Dimensions (L x W x H)	Art. No.
	**Reanimation board** With holder, screwed to the rear wall	800 x 450 x 10 mm	**543 741**
	**Shelf for defibrillator** Height-adjustable, rotating table platform, 10 kg loading capacity screwed to corpus (Defibrillator not included) MED-Click fastening on request	450 x 400 mm (L x W) 325 x 255 mm (L x W)	**542 854** **543 743**
	**Holder for oxygen tank** Fastened to the side wall, for tanks 5/10 litre, diameter 145–205 mm, adjustable (MED-click at the top, scewed at the bottom)	132.5 x 160 x 230 mm	**542 304**
	**Holder for oxygen cylinder 2 L** It provides secure position on the trolley for 2 L oxygen cylinder.		**543 744**
	**Sealing strip for drawers** Mounted on the left or right of the trolley, traffic red (RAL 3020)	right left	**542 299** **543 463**
	Sealing strip for drawers Can be configured, traffic red (RAL 3020) **Seals** 100 pcs.		**543 532** **542 310**

ACCESSORIES WARMING DRAWER

The practical warming drawers for linens or infusions can be integrated in all MEGAdrive trolleys.

Warming drawer for linens

For pre-warming textiles to keep patients warm and increase comfort.

Warming drawer for infusions

For keeping saline solution warmed to body temperature without needing additional equipment or walking further – for the protection and comfort of the patients.

	Warming drawer for linens	Warming drawer for infusions
Model	Warming drawer with perforated insert, switch panel and LED display for display of inside temperature	Warming drawer with perforated insert, switch panel and LED display for display of inside temperature

More organized with a better overview for easier work: there is a suitable drawer divider in the MEGAdrive range for any drawer size.

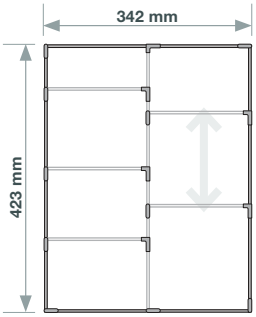

The standard drawer dividers are designed to fit the most common dimensions of medical supplies.

If you require an individual solution, our expansion sets are also available in addition to the standard drawer dividers.

MEGAstore

ITS ACE IS ITS SPACE

The MEGAstore complements the fleet of medical transport trolleys by MED-Systeme with a lot of extra volume. For a lot of extra material for long working days.

Loaded in the morning, no need to re-stock all day.
The MEGAstore offers ample space for an entire day's worth of consumables. Individually usable modules can be used to store everything needed in the day-to-day running of a clinic. Dust-tight and clean behind space-saving roller shutters or individually opening hinged doors.

Complete standard-conformity.
Nevertheless, truly extraordinary.
The ISO module trolleys are especially adapted to enable the use of ISO modules (600 x 400 mm). Through flexible module carrier walls, all standard brands of ISO module baskets can be retrofitted, making MEGAstore the perfect base for integrated solutions. All over the world. And yet it still stands out. It doesn't go unnoticed: through its award-winning top design and a wide variety of available colours to bring style and cheer to all surroundings.

Chic and smart.

At MED-Systeme, function and design, German technology and high-quality processing are inextricably intertwined. Stylish and modern in shape and colour, smart in its versatility as a valuable assistant.

Extremely easy to manoeuvre.
Two long, ergonomic push handles on both sides. Their large-dimensioned diameters make them fit particularly well in the hand. As a result, the trolley is easy to move. By people of all sizes.

Sturdy with smooth rolling castors.
MED-Systeme's proven high quality is featured in the robust corner guards which provide all round protection for the trolley and other equipment or surfaces that it might come in contact with. The double, extra smooth electrically conductive rolling castors ensure easymanoeuvring even when fully loaded. The brakes and directional locks on two castors offer additional safety when parked.

Clean and closed. Easy to open.
In order to ensure that everything is kept clean until needed, an all-round seal protects against dust and dirt. High-quality hinges create an extra large opening angle of 270°

MEGASTORE ROLL-FRONT TROLLEYS

MED-Systeme Ltd.

We produce high-end hospital furniture and equipment. The company's roots trace back to BLANCO Professional, part of a large industrial group in Germany. A market leader and innovator in the hospital furniture space, it became an independent business entity in 2017.

Ran by the ex-BLANCO team, Med-Systeme solidified its market position in Germany and expanded further in EU and Switzerland, as well as in new geographies, such as the Middle East. Med-Systeme has delivered its solutions to numerous reputable medical institutions.

We are your contact for functional medical furniture in clinics, practices and outpatient departments. We develop, manufacture and market high quality products being leaders in many areas.

Our focus is always on people. We are not only concerned with the equipment but also with your patients, ensuring that they feel good and recover quickly. Our products and solutions also make the work of clinic staff more enjoyable. Our experienced, creative team brings design, ergonomics, order and freshness to your rooms.
